

# SAFETY DATA SHEET

SABA Sealtrack 750

## 1. Identification of the substance/preparation and of the company/undertaking

### Identification of the substance or preparation

**Product name** : SABA Sealtrack 750  
**Art. No.** : 100201h / 100203h/ 100202h  
**Use of the substance/preparation** : Adhesive. Sealant

### Company/undertaking identification

**Manufacturer** : SABA Dinxperlo BV  
 Industriestraat 3  
 P.O. Box 3  
 NL - 7090 AA Dinxperlo  
 The Netherlands  
 Telephone: +31 315-658999  
 Telefax: +31 315-653207  
 E-mail: info@saba.nl

**Emergency telephone number** : +31 315-658999

## 2. Composition/information on ingredients

**Substance/preparation** : Preparation

Within the present knowledge of the supplier, this product does not contain any hazardous ingredients in quantities requiring reporting in this section, in accordance with EU regulations or National regulations.

## 3. Hazards identification

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments.

See section 11 for more detailed information on health effects and symptoms.

## 4. First aid measures

**Inhalation** : Adverse health effects are considered unlikely.  
**Ingestion** : Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately.  
**Skin Contact** : In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Obtain medical attention.  
**Eye contact** : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Get medical attention if irritation occurs.

See section 11 for more detailed information on health effects and symptoms.

## 5. Fire-fighting measures

**Extinguishing media** : Use an extinguishing agent suitable for surrounding fires. In case of fire, use water spray (fog), foam, dry chemical or CO<sub>2</sub> extinguisher or spray.  
**Special exposure hazards** : No specific hazard.  
**Hazardous thermal decomposition products** : These products are carbon oxides (CO, CO<sub>2</sub>), nitrogen oxides (NO, NO<sub>2</sub>...). Some metallic oxides.  
**Special protective equipment for fire-fighters** : Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## 6. Accidental release measures

- Personal Precautions** : Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment (Section 8).
- Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
- Methods for cleaning up** : If emergency personnel are unavailable, contain spilled material. For small spills add absorbent (soil may be used in the absence of other suitable materials) scoop up material and place in a sealed, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal.

## 7. Handling and storage

- Handling** : Wash thoroughly after handling.
- Storage** : Keep container tightly closed. Keep container in a cool, well-ventilated area.
- Packaging materials**
- Recommended** : Use original container.

## 8. Exposure controls/personal protection

- Exposure limit values** : Not available.

### Exposure controls

- Occupational exposure controls** : Ensure that eyewash stations and safety showers are close to the workstation location.
- Respiratory protection** : Adverse health effects are considered unlikely.
- Hand protection** : Gloves complying with an approved standard should be used when a risk assessment indicates this is necessary. We have had good experiences using: 1-4 hour(s) (breakthrough time): neoprene
- Eye protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.  
Possible: Safety glasses.
- Skin protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved. Barrier creams may help to protect the exposed areas of the skin, they should however not be applied once exposure has occurred.

## 9. Physical and chemical properties

### General information

#### Appearance

- Physical state** : Liquid. (Viscous liquid.)
- Colour** : White. Grey. Black.
- Odour** : Characteristic.

### Important health, safety and environmental information

- Flash point** : The lowest known value is Closed cup: 163°C (325.4°F). (bis[3-(alkyl (C=1-3) alkoxy (C=1-4) silyl) propyl] polyoxypropylene)
- Relative density** : Weighted average: 1.54 g/cm<sup>3</sup> (Estimated.)

### Other information

- VOC Content** : Liberated.

## 10. Stability and reactivity

- Stability** : The product is stable.
- Materials to avoid** : Reactive with moisture.
- Hazardous Decomposition Products** : These products are carbon oxides (CO, CO<sub>2</sub>), nitrogen oxides (NO, NO<sub>2</sub>...). Some metallic oxides.

## 11. Toxicological information

### Potential acute health effects

- Inhalation** : No known significant effects or critical hazards.
- Ingestion** : No known significant effects or critical hazards.
- Skin Contact** : No known significant effects or critical hazards.
- Eye contact** : No known significant effects or critical hazards.

### Potential chronic health effects

- Carcinogenicity** : No known significant effects or critical hazards.
- Mutagenicity** : No known significant effects or critical hazards.
- Reproductive toxicity** : No known significant effects or critical hazards.

## 12. Ecological information

There are no data available on the preparation itself. Do not empty into drains; dispose of this material and its container in a safe way.

- Other adverse effects** : No known significant effects or critical hazards.

## 13. Disposal considerations

- Methods of disposal** : The generation of waste should be avoided or minimised wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
- European waste catalogue (EWC)** : 080410
- Hazardous waste** : To present knowledge of the supplier, this product is not regarded as hazardous waste as defined by EU Directive 91/689/EC.

## 14. Transport information

### International transport regulations

Regulatory information	UN number	Proper shipping name	Class	Packing group	Label	Additional Information
<b>ADR/RID Class</b>	Not regulated.	-	-	Not available.		<b>Classification Code:</b> - <b>Limited quantity</b> - <b>CEPIC Tremcard</b> -
<b>IMDG Class</b>	Not regulated.	-	-	Not available.		<b>Emergency schedules (EmS)</b> -

## 15. Regulatory information

### EU Regulations

- Risk Phrases** : This product is not classified according to the EU regulations.
- Product use** : Classification and labelling have been performed according to EU directives 67/548/EEC, 1999/45/EC, including amendments and the intended use.  
- Industrial applications.

### Other EU regulations

**EC Statistical classification (Tariff Code)** : 32089091

### National regulations

## 16. Other information

### History

- Date of issue** : 9-9-2004.
- Prepared by** : J.W. Diesveld.

### Notice to reader
